presents

Watershed Wise Landscape Professional Certification Training November 7 & 8 in Sacramento

Build upon your current experience, training, and certifications. In this unique training, you will:

- Learn on-site water management strategies and how to apply watershed-based principles
- Understand soil - water - plant relationships and how to build healthy soils
- Conduct an irrigation water audit and site evaluation
- Calculate irrigation run times and precipitation rates for efficient scheduling to eliminate dry-weather runoff
- Design projects within water budgets using plant factors
- Design and locate rain gardens
- Identify new water efficiency techniques and technologies

Green Garden Group's (G3's) Watershed Wise Landscape Professional (WWLP) training is recognized as a US EPA WaterSense labeled Professional Certification Program.

Generously sponsored by:

Today's landscape professionals need to be more than water wise, we need to become Watershed Wise Landscape Professionals (WWLP) to manage our limited resources without sacrificing the beauty and functionality of our landscapes.

Who is this training for?

This opportunity is for YOU – APLD Members, Designers, Landscape Architects; QWEL Certified Professionals; Landscape Contractors, Landscape Managers, Maintenance Workforce; Water Efficiency and Water Quality Professionals. This training is practical for anyone and everyone who designs, installs, maintains, manages, and provides services for landscapes. This training qualifies for 12.75 APLD CEUs and is eligible for IA and QWEL CEUs.

Why take this training?

Because it builds upon your current experience, training, and certifications, and takes them to the next level by integrating the fundamentals of sustainable, water-efficient landscaping. Green Garden Group's (G3's) Watershed Wise Landscape Professional (WWLP) training is a US EPA WaterSense labeled Professional Certification Program for Irrigation System Auditing. Through its holistic, watershed approach, the WWLP training provides a deeper understanding of the plant/soil/water relationship, plant water requirements, landscape water budgeting, and irrigation management. The training teaches you how to assess site conditions to use rainwater as a resource and factor rainwater into your outdoor water efficiency analysis to reduce supplemental landscape water use and runoff, regardless of the climate in which the landscape is situated.

In this training, you will:

- Learn watershed-based principles and how to apply them to every landscape, regardless of size.
- Increase skills to create landscapes that restore and support the environment; increase biodiversity; conserve fresh water resources.
- Acquire strategies for communicating the benefits of Watershed Wise and sustainable landscaping practices to clients.
- Learn side-by-side with other professionals for an integrated approach to designing, installing, and managing landscapes.
- Build climate-resiliency into your landscapes to withstand our rapidly changing climate.

When and where is this training?

Day 1, November 7th, 8 a.m. to 5 p.m.

Day 2, November 8th, 8 a.m. to 3:30 p.m. & Certification Exam from 3:30 to 5:30 p.m.

City of West Sacramento, City Hall, 1110 West Capitol Avenue, West Sacramento, CA 95692

Sponsors: In addition to APLD-CA, the sponsors listed below have made it possible to offer this training for a very reasonable fee, and reduced registration fees for APLD Members, QWEL Certified Professionals, and currently certified Watershed Wise Landscape Professionals. We thank:

California Water Efficiency Partnership — A Chapter of the Alliance for Water Efficiency

City of Roseville Environmental Utilities

City of West Sacramento

Regional Water Authority's Water Efficiency Program

Registration Fees include course materials, breakfast (light) and lunch on both days, free parking in the City Hall's lot based on availability:

\$147 APLD CA Members NOT QWEL or WWLP Certified

\$ 70 APLD CA Members Already WWLP Certified (want a refresher)

\$147 QWEL Certified Professionals NOT Yet WWLP Certified

\$180 Non-APLD CA Members, QWEL or WWLP Certified Professionals
